# About Aware Super Future Saver

We're on a mission to be Australia's most super helpful super fund. For our more than one million members, that means a commitment to delivering strong long-term returns and help and guidance from day one. For Future Saver, you have a choice of 15 investment options, or you can invest your super in our MySuper Lifecycle approach which adjusts your investments to match your age. MySuper was introduced by the government to give members who don't choose their own investment option access to a simple, low-cost option.

### **①** Important information

This PDS is exclusively for the Aware Super Future Saver product.

# 2 How super works

Super may be a tax-effective way to save for retirement. In most cases super is compulsory and the government has designed it with significant tax advantages.

#### **Super contributions**

There are different types of contributions which can be made to super including compulsory employer contributions called superannuation guarantee (SG) contributions, voluntary contributions, government co-contributions, rollovers, eligible spouse contributions and contributions splitting.

#### **Making contributions**

To further build your super savings, you can contribute voluntarily by:

- setting up a salary sacrifice arrangement (through your employer)
- making personal after-tax contributions. These contributions may make you eligible for a government co-contribution amount, and
- making regular or lump sum personal tax-deductible contributions.

You may also roll over any super savings you have in other super funds into your Future Saver account.

To see all your contribution options, visit aware.com.au/pds and read the Super Handbook.

#### **Contribution restrictions**

Although super may be a tax-effective investment structure designed to help you save for your future income needs, contribution caps, set by law, limit the amount of super contributions you can make each year without incurring additional tax (see 'How super is taxed' section for more information).

### Withdrawing your super

Super is a long-term investment. Your contributions and their earnings will generally be preserved, which means that you cannot withdraw them unless you satisfy one of the conditions of release. For more information, go to **aware.com.au/pds** and read the *Super Handbook*.

#### Choosing your super fund

Most employees have the opportunity to choose the super fund to which their employer pays their SG contributions, although in some cases an industrial award or agreement may require your SG contributions to be paid to a particular fund. For more information about how super works see the *Super Handbook* or visit **moneysmart.gov.au**.

# **3** Benefits of investing with Future Saver

#### Our Lifecycle approach

Our default MySuper Lifecycle approach consists of 11 stages, with your investments adjusted to match your age. MySuper Lifecycle is designed to help maximise returns in your younger years, and minimise the impact of large market falls as you approach retirement.

#### Flexible insurance cover

Insurance is about protecting yourself and your family financially if something happens and you can't work. Insurance through your super account may be convenient, and our insurance is flexible, so you can apply for the type and amount you want at any time, subject to terms and conditions. See the *Insurance Handbook* for more information.

#### Expert help and advice

We want you to have a great retirement, and we're here to help you achieve that. You can choose from a range of services we offer, both digitally and face-to-face, from simple phone advice at no additional fee, through to more complex financial planning on a fee-for-service basis. You only pay for the service you use. If the advice relates to your super with us, it may be possible to have the fees deducted directly from your super account.

#### Death benefit options

We allow you to make binding death benefit nominations to direct the payment of your benefit upon your death.

You should read the important information about how super works and the benefits of investing with Future Saver in the *Super Handbook* and *Investment* and *Fees Handbook* before making a decision. Go to **aware.com.au/pds**. The material relating to how super works and the benefits of investing with Future Saver may change between the time you read this Statement and the day you acquire the product.

# 4 Risks of super

#### All investments, including super, have some level of risk

It is important to understand that assets with the highest potential returns in the long term may also have the highest risk of negative returns in the short term.

Investment risk will vary from option to option depending on the assets that make up the option. When choosing your investment option or mix of options, it is important to understand that:

- · the value of your investment will change over time
- the level of returns will vary and future returns may differ from past returns
- returns are not guaranteed and there is a risk you may lose some of your money
- your super savings (including contributions and returns) at the time of retirement may not be enough to adequately provide for your retirement needs
- the appropriate level of risk depends on a range of factors, including your age, investment time frame, where other non-super assets are invested and your risk tolerance, and
- super laws may change in the future which could affect things like when and how you can add to or access your super.

The fund is also exposed to operational risks such as unit pricing errors, systems failures and fraud. However, the trustee maintains an Operational Risk Financial Requirement (ORFR) reserve to provide funding for any material losses arising from these types of events.

Under exceptional circumstances (such as the closure of a major sharemarket), and in the interest of all members, we may temporarily suspend transactions and/or the calculation and application of unit prices in the fund.

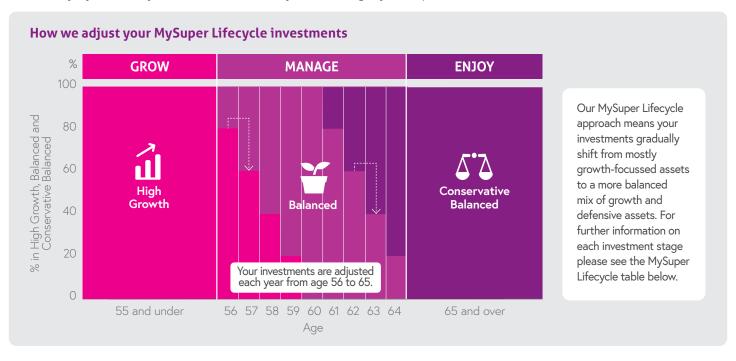

You should read the important information about the risks of super in the *Investment and Fees Handbook* before making a decision. Go to **aware.com.au/pds**. The material relating to the risks of super may change between the time you read this Statement and the day you acquire the product.

# 5 How we invest your money

#### **MySuper Lifecycle**

If you don't make a choice, your super will be invested in our MySuper Lifecycle approach which consists of three phases: **Grow**, **Manage** and **Enjoy**. MySuper Lifecycle automatically adjusts your investment mix as you get older.

Our MySuper Lifecycle approach invests in three of our diversified investment options: High Growth, Balanced and Conservative Balanced. Your investment allocation to each option will depend on your age. Up until age 55, you'll be invested in the High Growth option. When you reach age 56, we'll begin making a series of annual adjustments, gradually transitioning your investments from High Growth into the Balanced and Conservative Balanced options as illustrated below. This is done by rebalancing your account each year on your birthday (or the following business day if your birthday falls on a non-business day) and investing any subsequent contributions in the new investment allocation.

- <sup>1</sup> The desired investment outcome the stage aims to achieve over rolling 10-year periods, after taking into account fees, costs and tax. The investment objectives do not constitute a forecast or guarantee of future performance.
- <sup>2</sup> Growth assets include shares and private equity investments. Defensive assets include cash, fixed income and credit income investments. Property, infrastructure & real assets and liquid alternatives are a mix of growth and defensive investments. The trustee maintains the asset allocation within +/-20% of the growth/defensive target. The asset allocation ranges are shown on the following page for the GROW, MANAGE and ENJOY Lifecycle phases. For more details about asset classes, including the strategic asset allocations and ranges for all Lifecycle stages and investment options, go to the *Investment and Fees Handbook*. To view the latest asset allocations go to our website at aware.com.au/assetallocations.
- <sup>3</sup> This is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20-year period. For more information go to our website at aware.com.au/investmentandrisk.

The minimum suggested investment timeframe for each Lifecycle stage is based on the suggested timeframe of the underlying investment option(s) applicable to each stage i.e. the High Growth, Balanced and Conservative Balanced investment options, as relevant. Our MySuper Lifecycle approach automatically adjusts your investment mix according to your age.

#### Your super. Your choice.

If you want to custom build your investment strategy we offer you a choice of 15 investment options including nine diversified options and six single asset class options. You can choose to invest in one option or a combination and can switch your money to another investment option at any time without paying any additional fees.

When choosing how to invest your super, you should consider the likely investment return, the risk and your investment timeframe.

#### **Diversified investment options**

These options invest your super across different asset classes. The percentage allocated to each asset class varies, which means each diversified investment option has a different risk/return profile. We offer three diversified investment option styles – Core, Socially Conscious, and Indexed.

Core	Socially Conscious	Indexed
High Growth	High Growth Socially Conscious	High Growth Indexed
Balanced	Balanced Socially Conscious	Balanced Indexed
Conservative Balanced		
Conservative		
Defensive		

Each diversified option has a target asset allocation, known as the strategic asset allocation, as well as asset allocation ranges, which are the minimum and maximum amounts we can invest in each asset class. The asset allocation targets and ranges, as at the date of this PDS, are shown in the investment option tables in the *Investment and Fees Handbook*.

#### **Socially Conscious options**

Our Socially Conscious options are designed for members wanting to avoid particular industries and companies considered to have a highly adverse environmental or social impact. For more information refer to the 'Socially Conscious diversified investment options' section in the *Investment and Fees Handbook*.

#### Indexed options

Our Indexed options are designed for members who want a low-cost diversified option. To keep costs down, they only invest in passively managed equities (shares), fixed income (bonds) and cash, so don't have the same level of diversification as our Core and Socially Conscious diversified options.

#### Single asset class investment options

These options are invested in one asset class only, so you can have a greater degree of control over your investment mix. However, keep in mind that some asset classes are not available as a single asset class option (infrastructure and private equity, for example), which means your account may not have the same level of diversification as our diversified investment options.

The single asset class options are:

- Australian Shares
- International Shares
- · Property
- · Bonds
- Cash
- · Term Deposit

You should read the important information about how we invest your money in the *Investment and Fees Handbook* before making a decision. Go to **aware.com.au/pds**. # 6 Fees and costs

#### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.\*

#### To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities** and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

\* The wording regarding negotiation of fees is required by law. Our fees and costs are not negotiable.

This section shows fees and other costs that you may be charged. These fees and other costs may be deducted from your money, from the returns on your investment, or from the assets of the superannuation entity as a whole.

Other fees, such as activity fees, advice fees for personal advice and insurance fees, may also be charged, but these will depend on the nature of the activity, advice or insurance chosen by you. Aware Super does not pay any commissions to financial advisers.

We can change our fees and costs from time to time without your consent. We'll give you at least 30 days' advance notice if the fees we charge increase or if we introduce a new fee that affects your account. Where an increase is attributable to an increase in the trustee's costs of managing your investments, we will notify you after the change takes effect.

The information in the 'Fees and costs summary' table may be used to compare fees and costs between different superannuation products. To view the fees and other costs for each MySuper Lifecycle stage and investment option, go to the *Investment and Fees Handbook* available at **aware.com.au/pds**.

<sup>&</sup>lt;sup>1</sup> If your account balance for a product offered by the superannuation entity is less than \$6,000 at the end of the entity's income year, certain fees and costs charged to you in relation to administration and investment are capped at 3% of the account balance. Any amount charged in excess of that cap must be refunded.

<sup>&</sup>lt;sup>2</sup> Due to rounding of the monthly fee amounts the total Account keeping fee will be \$52.01 in some years.

<sup>&</sup>lt;sup>3</sup> These amounts are indicative only and are based on the investment fees and costs and transaction costs for the year ended 30 June 2022, other than performance fees which are a 5-year average. Past costs are not a reliable indicator of future costs. The actual amount you'll pay in subsequent financial years will depend on the actual fees and costs incurred by the trustee in managing the Lifecycle stage or investment option.

<sup>&</sup>lt;sup>4</sup> Investment fees and costs include an amount for performance fees, ranging from 0.27% to 0.36% for the MySuper Lifecycle approach depending on the Lifecycle stage you are in. The calculation basis for these amounts is set out under 'Additional explanation of fees and costs' in the *Investment and Fees Handbook*.

<sup>&</sup>lt;sup>5</sup> Refer to 'Additional explanation of fees and costs' in the *Investment and Fees Handbook* for details.

<sup>(1)</sup> Note: If you consult a financial planner, you may have to pay additional fees. It is important to refer to the Statement of Advice that will be provided to you by your financial planner for more information.

# 7

# How super is taxed

Super can be a tax effective investment. Tax is payable on some contributions depending on the amount and type of contribution. Generally we will deduct the contributions tax when a contribution is processed to your account.

• There are limits on how much you can contribute to super, and you may pay extra tax if you exceed these limits.

These limits are called contribution caps and apply to contributions that are made to any super fund, regardless of how many superannuation accounts you have. You should monitor all contributions (made by you and on your behalf) to ensure they do not exceed the caps.

#### Tax treatment 2022/23

#### Contributions

Before-tax (concessional) e.g. salary sacrifice, superannuation guarantee contributions made by your employer **15%** on amounts up to \$27,500^ a year. If your income (including before-tax contributions) is more than \$250,000 a year, you'll pay an extra 15% on some or all of your before-tax contributions.

After-tax (non-concessional) e.g. personal contributions and spouse contributions **0%** on amounts up to \$110,000 a year. If certain conditions are met you may be able to bring-forward two future years of non-concessional contributions cap, up to \$330,000.

If you exceed the cap, additional taxes may apply.

^ If you have a super balance (across all your super and pension accounts) of less than \$500,000 on 30 June of the previous financial year, you may be able to carry forward unused concessional cap amounts. Excess concessional contributions over the above caps will be taxed at your marginal rate (with a 15% tax offset). You may be able to elect to release up to 85% of your excess concessional contributions from the fund.

#### Tax treatment 2022/23

**Investments** 15% (maximum) on investment earnings.

#### Tax treatment for taxable component - taxed element 2022/23

	<u> </u>
Withdrawals	
If you are age 60 and above	Tax free
If you are at or over preservation age but under age 60	Tax free up to \$230,000 15% plus the Medicare levy for amounts over \$230,000
If you are under preservation age	20% plus the Medicare levy

Preservation age ranges from age 55 to age 60 depending on your date of birth. Refer to the *Super Handbook* for details, available at **aware.com.au/pds**.

- You should provide your tax file number (TFN) when joining the fund. It is not compulsory to quote your TFN. However giving your TFN will have the following advantages:
  - we will be able to accept all permitted types of contributions to your account/s
  - it will make it much easier to find different super accounts in your name so that you receive all your super benefits when you retire, and
  - other than the tax that may ordinarily apply, you will not pay more tax on contributions and have more tax withheld on super benefits than you need to.

You should read the important information about how super is taxed in the *Super Handbook* before making a decision. Go to **aware.com.au/pds**. The material relating to how super is taxed may change between the time you read this Statement and the day you acquire the product.

<ul> <li>If your employer nev SG contribution into Saver account on or eligibility date</li> </ul>	your Future	your Basic Cover will not start.

- \* SG contributions must be received before age 70 to start Basic Cover automatically.
- You can apply online for Basic Cover at any time **before** your eligibility date. For example, if you are under age 25 and/or have less than \$6,000 in your Future Saver account, and want to activate your Basic Cover early.

You can opt out of receiving Basic Cover automatically before it's given to you. If you cancel your automatic Basic Cover within the first 60 days we will refund any premiums which have already been paid by you. If you do not opt out of, or cancel, automatic Basic Cover, the cost of this cover will be deducted from your Future Saver account each month.

#### Your insurance category

If you get Basic Cover automatically and you don't already have an insurance category assigned to you, we give you the same insurance category as the one that has been assigned to your employer. An insurance category is assigned to an employer based on the nature of the duties of its workforce. Employers are assigned either Low Risk, Medium Risk or High Risk. There is also a Professional insurance category, however it applies only for individual members on application.

If your job is different from other workers in the organisation where you work (e.g. you work in the head office of a mining company), then the insurance category assigned to you based on your employer may not be appropriate for you and you may be paying too much for your insurance. You can apply to review your insurance category at any time by logging into Member Online and going to the 'Insurance' tab.

#### Level and cost of death and TPD insurance

The cost of death and TPD insurance is based on several factors:

- your age
- · your amount of cover
- · your insurance category
- any individual premium loadings

The Professional insurance category provides the lowest premium and premiums increase through the Low Risk, Medium Risk and High Risk insurance categories in that order.

The cost for automatic age-based death and TPD Basic Cover is summarised in the below table.

Warning: Insurance premiums are deducted from your Future Saver account at the end of each month, if you do not opt out or cancel it.

The cost of cover for part of a month is calculated on a daily basis. The cost of cover may change in the future. If premium rates increase, we will notify you in writing at least 30 days beforehand. If there is not enough money in your account, your insurance cover will stop. Please read the *Insurance Handbook – Employer sponsored and Personal* for more information about cancellation and lapsing of insurance cover.

The value of your insurance benefit varies with your age and your insurance category. Basic Cover starts at \$27,000 and increases each year until age 35. Cover starts decreasing from age 41 onwards and stops at age 70.

#### Joining as an individual

Age last

If you join Future Saver online or by completing an application form, and not through your employer, you will **not** be offered Basic Cover automatically. However you can apply for cover at any time, which will be subject to approval by the insurer.

If you later start working for an employer who is registered with us, and we receive SG contributions from that employer for you, we may offer you Basic Cover at that time, as if you have joined the fund through your employer (subject to the eligibility conditions noted in the 'Eligibility for automatic Basic Cover' section).

#### Increase your cover with Basic Plus Cover

Basic Plus Cover gives you twice as much death and TPD cover as Basic Cover. You can apply for Basic Plus Cover at any time, if you are eligible. There are circumstances when you cannot apply for Basic Plus Cover, including if you have already altered or reduced your Basic Cover, or have converted your Basic Cover to fixed cover. When applying for Basic Plus Cover, you can also apply for optional IP cover, if you are eligible. IP cover taken up as part of the Basic Plus Cover offer has a 2-year benefit period and 60-day waiting period. Basic Plus Cover will commence on the date the insurer accepts your application in writing.

**1** You can apply for more cover. You should read the information in the *Insurance Handbook – Employer Sponsored and Personal* before deciding whether more cover is appropriate for you.

#### Maximum amount of death and TPD cover

The maximum amount of insurance cover is unlimited for death, \$5 million for terminal illness and \$5 million for TPD.

Your cover will cease in a number of different situations, including if there is not enough money to pay for your cover, or if you cancel your cover. For a full list of situations when cover will cease, please refer to the Insurance Handbook – Employer Sponsored and Personal.

#### Continue, cancel or reduce your cover

You can opt out or reduce or cancel your cover at any time by logging into Member Online. Once your cover is cancelled or reduced you will need to reapply to increase your insurance. Any subsequent application for insurance will be subject to approval by the insurer. If you cancel automatic Basic Cover within 60 days of the date it's activated, it will cancel from the day it started and be treated as if it never existed. Any premiums you've paid will be refunded.

#### **Optional income protection cover**

IP insurance provides a monthly income benefit, which is a percentage of your pre-disability income, if you become sick or injured and are not able to work, as defined by the insurance policy. You have a choice of waiting periods and benefit payment periods. Eligible members can apply for fixed IP cover at any time by logging into Member Online.

You should read the information in the *Insurance Handbook – Employer Sponsored and Personal* before deciding whether IP cover is appropriate for you. Go to **aware.com.au/pds**. The material relating to insurance in your super may change between the time you read this Statement and the day you acquire the product.

#### **Transferring cover to Aware Super**

If you are eligible to obtain insurance cover through Aware Super, you may apply to have death, TPD or income protection cover that you may already have under another life insurance policy or through another super fund transferred to Aware Super. To apply to transfer cover, complete the (V517) Transfer your insurance form available on our website or by contacting us. Conditions apply and the insurer has the right to accept or reject your application.

#### **Exclusions and limitations**

There are conditions and events that affect your cover. See the *Insurance Handbook* on our website for details.

You should read the important information about insurance in the Insurance Handbook – Employer Sponsored and Personal before making a decision. Go to aware.com.au/pds. The material relating to insurance in your super may change between the time you read this Statement and the day you acquire the product.

### Other important information

A death, terminal illness or TPD benefit is paid as a lump sum. While the definitions of TPD under the insurance policies are similar, they are not the same. Definitions are explained in the 'What the words mean' section of the *Insurance Handbook – Employer Sponsored and Personal*. To receive an insured benefit your claim must be accepted by the insurer, and you must meet a condition of release under superannuation law.

# 9 How to open an account

#### Join through your employer

Your employer may be able to create an account on your behalf. Check with your payroll team and request a choice of super form. Your employer will do the rest.

#### Join as an individual

Apply online in five easy steps at **join.aware.com.au**. It only takes a few minutes. Alternatively, complete the attached (V903) Application to join Aware Super Future Saver form on the next page.

#### **Cooling off**

When you join as an individual (not through your employer), you have a 14-day cooling off period in which to consider your membership. This period commences on the earlier of when a welcome communication is sent to you or the fifth business day after the account is opened. During this time you can cancel your membership and withdraw your account balance.

If you choose to withdraw during the cooling off period, the amount you receive may be less than the amount of your original investment. You cannot exercise your cooling-off rights if you have exercised any other right or power you have in relation to your Future Saver account. Your account balance is calculated using the unit prices for your investment options minus any withdrawals made during your membership, fees, insurance premiums (if applicable) and any taxes payable. If your benefit is subject to preservation it cannot be paid out to you in cash but must be rolled into another complying super fund.

The cooling off period does not apply to members who join through their employers.

The Trustee may disclose your TFN to another superannuation fund when your benefits are being transferred, unless you request in writing to the Trustee that your TFN not be disclosed to any other superannuation fund. You are not legally required to provide us with your TFN, however giving your TFN to us will have the following advantages, which may not otherwise apply:

- We will be able to accept all types of contributions to your account or accounts
- · The tax on contributions to your account or accounts will not increase
- Other than the tax that may ordinarily apply, no additional tax will be deducted when you start drawing down your superannuation benefits
- And it will make it much easier to trace different superannuation accounts in your name, so that you receive
  all your superannuation benefits when you retire.

If you do provide your TFN it will be kept confidential by us and the ATO.
